DUTCH GRANULATED PEAT

Finest material for propagating purposes or for mixing with soil to loosen it up and add humus. Especially is this necessary where ericaceous plants are propagated. We are handling only the very best quality. All brands are not alike in quality. Some brands appear to be cheaper, but there is a great difference in quantity packed in bale. Most cheap brands weigh from 132 to 176 lbs. per bale. Our bales average 210 lbs. to the bale. Therefore in our bales you get a greater quantity of material.

1 to 9 bales at \$3.00 per bale; 10 bales and up \$2.90 per bale. 25 bales and up \$2.80 per bale. F. O. B. Dresher.
